

## HEAVY 15° - 15° HANGER

Heavy Hanger HHFRL is used to support bridge deck interior formwork. 15° -15° hangers are specially designed to react lateral forces prevalent in many forming conditions. The 15° - 15° Hanger is fabricated with two 1/2" HHFRL end clips welded to wire strut.

OCM Part No.	Dia	Safe Working Load lbs
BH-HHFRL	1/2"	6,000

-SWL provides a safety factor of approximately 2 to 1.
