

## **HEAVY - TY - BACK 90° TY - DOWN HANGER**

Ty-Back Ty-Down Hanger HTBH-HK is manufactured with a 1/2" diameter 90° end clip welded to one end of the hanger's strut. The other end of the strut has a reinforced, 180° wraparound configuration. The wraparound end is fabricated to slip over the flange of a steel bridge beam. This hanger is also available in a 3/4" system fabricated with ends to accommodate 3/4" rods, for higher loads.

OCM Part No.	Dia	Safe Working Load lbs
BH-HTBH-HK	1/2"	6,000
BH-HTBH-HK-75	3/4"	10,000

-SWL provides a safety factor of approximately 2 to 1.  
-Please specify flange width and finish (PLAIN or HDG) when ordering.
