

Batter Washers

Description:

OCM Batter Washers are made from Ductile Iron and are used when the Wales are at an angle to the ties.

Features:

- Nail Holes provided for securing easily to formwork
- Permits any angle from 45 to 90 degrees
- Can be used with any size of Coil Rod or Euro Rod from 1/2" to 1 1/2"

Additional Notes: SWL provides a safety factor of approximately 2 to 1.

Item Number	D Size (in)	A (in)	B (in)	C (in)	Weight Per Piece (lbs)
50BW	1/2"	3.47	3.83	1	1.45
