

Slab Bolster - Dimpled Flat Top

Description:

The OCM Slab Bolster is a heavy duty polymer composite slab bolster that can be used to support rebar in all types of slab or wall applications.

Features:

- Interlocking end tabs provide extra strong connection and enables continuous runs of slab bolster.
- Made from heavy duty yet flexible polymer composite material which will withstand heavy loads, but still flexible enough to bend 180° for side wall spacers and resistant to breaking and snapping.
- Wide footprint provides stability under load.
- Flat top allows the user to slide rebar freely into position during placement.

Additional Notes: Meets CRSI requirements for a plastic bar support

Item Number	Size	Weight Per Lf (lbs)	Bundle Quantity (lf)
SBCOMP-200D	2" X 5 Ft	0.16	100
SBCOMP-300D-10	3" X 10 Ft	0.19	100
