

Waler Tie

Description:

OCM, Inc's Waler Ties can be used with most standard modular forming systems. The ends are turned 90° from each other so a Z Tie Holder can attach double wales to the modular form.

Features:

- 2 Lengths offered.
- Made from high strength Steel.

Additional Notes: SWL provides a safety factor of approximately 2 to 1.

Item Number	Carton Quantity
WT-2X4	100
