

BH-HHFRL

Heavy Hanger HHFRL is used to support bridge deck interior formwork. 15° -15° hangers are specially designed to react lateral forces prevalent in many forming conditions. The 15 - 15 Hanger is fabricated with two 1/2" HHFRL end clips welded to wire strut.

Part Number	BH-HHFRL
Safe Working Load (lbs)	6,000
Dia. (in)	1/2"
