

PPC-200

Designed for both strength and stability, our PROPAVING® line delivers value and performance for the reinforced concrete professional. With 1/4" cover height increments, our PROPAVING® product combines the engineered strength of an I-beam with a convenient and secure snap head feature that accommodates a #3 to #6 bar. With easy-to-read size markers our chair also has slots in the base of the chair that allows for stable On-Grade placement.
