

SBUCOMP-200

OCM Slab Bolster Uppers are made from a very strong polymer composite material to support and provide proper cover for rebar in elevated slabs, tilt-wall, precast, post tension decks, and D.O.T. projects. This is the ideal product to support the second layer of rebar.

Part Number	SBUCOMP-200
Length (in)	60"
Size (in)	2"
